Jennifer L. Mitchell, MD

Family Medicine

"Growing up, I saw the effects of uncontrolled chronic conditions, specifically diabetes. I chose medicine to fill the need for preventive care in addition to managing chronic conditions in order to prevent complications. I strive to treat each patient like a family member or friend so we can set and reach healthy goals together."

Brittany E. Norris, APRN, FNP

Family Medicine

"Watching several family members through their illness propelled me to want to advocate for others in their time of need. I believe it is important to build a strong relationship with my patients and listen to their needs. I value allowing patients to participate in their care plan in order to provide the best holistic care through family medicine for all ages."

Sondra Aiken, MD

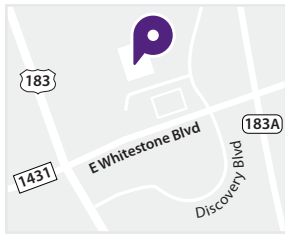

Internal Medicine

"I treat every patient with the same diligence as if they were the President. I value the uniqueness of every individual, treating each patient as a precious gem, listening to your stories, celebrating your milestones, and sharing your moments of joy."
